

The image shows a Visual Studio Code editor window with a Python file named `open.py`. The code in the editor is as follows:

```
1 try:
2     open('config.py')
3 Traceback (most recent call last):
4   File "/tmp/config.py", line 9, in <module>
5     main()
6   File "/tmp/config.py", line 3, in main
7     configuration = open('config.txt')
8 IsADirectoryError: [Errno 21] Is a directory: 'config.txt'
9
```

The terminal window at the bottom shows the execution of the script and the resulting errors:

```
s://aka.ms/PSWindows
